- Worked on **50+ Shopify stores** and delivered them within tight deadlines

---

## A BRIEF SUMMARY OF EXPERIENCE

**Premium Brands Services LLC (Oct 2023 - Present)**
**Role: Front end Developer**

- In this SFCC based website, I was responsible for designing pages on Figma designs and add functionalities using javaScript to provide better user experience.
- Created SEO friendly designs which meets W3C standards.
- Overcame the challenge of optimizing large size ecommerce platform by applying code factoring techniques and **LightHouse SEO report**.

**Adidas, Kingdom of Saudi Arabia (Sept 2023 – Oct 2023)**
**Role: Jr. Front end Developer**

- In this SFCC project, I worked on configuring and developing the Business Manager and updated page content.
- Responsible for transferring changes to various environments such as staging and production. Also integrated Currency Pricebook and navigation as per business requirements.

**React UI Component Library POC (July 2023 – Sept 2023)**
**Role: Team Lead**

- Led the team of 7 folks and helped them creating React components using Material UI.
- Implemented Storybook JS, a frontend workshop for UI development and presented to Pune and Nagpur DC team.
- Submitted Infosys Cobalt Asset for one of the react component.

---
