Experienced IT professional with **over 5 years** of expertise in building strong **User interfaces**. Certified in **WCAG standards**, with hands-on experience developing and maintaining accessible websites. Well-versed in **HTML, CSS, AJAX, React, jQuery** and **JavaScript**, I specialize in solving user interface challenges and crafting impactful **customer-facing features**. Expert in building and optimizing **Shopify stores** and **Salesforce Commerce Cloud** globally, coupled with a **strong background in ecommerce** domain. Seeking a role to apply my skills in IT domain and contribute to operational excellence by making strategic technical decisions and enhancing development

WORK HISTORY

Associate Consultant - Infosys
2022 Aug – 2024 Mar

- Led the design and implementation efforts for a Salesforce Commerce Cloud (SFCC) based websites by creating layouts based on **Figma designs** using HTML and CSS/SCSS and JavaScript.
- Utilized **accessibility testing tool**, Lighthouse, to validate compliance and address identified issues, resulting in a fully accessible and user-friendly website along with writing **unit test cases**.
- Worked as **Team Lead on React JS POC** which includes implementation of UI/UX modules and **Storybook JS**.
- Handled seamless deployment of changes across dynamic environments such as staging and production.
- Collaborated with team leads and managers to identify design approach and delivery strategies ensuring delivery within timeline.
- **Facilitated workshops** for different DC teams on Storybook JS, React core concepts and conducted demo for one of the React in-house project to the Infosys leadership team.

Sr. Shopify Developer - E2M Solutions
2020 Feb – 2022 Jul

- Led the team of 4 and **provided training** for Shopify – an ecommerce platform.
- Responsible for **creating Client Interface** for a number of projects from **Figma** and **Adobe XD designs** adhering to WCAG standards.
- Successfully **tackled the optimization** challenge by implementing code factoring techniques, resulting in improved performance metrics highlighted in the Lighthouse SEO report.
- Creating Proposals/Quotations, project plan, and **managing the project** until deployment.
- Integrated **Google Analytics (GA)** and **Google Tag Manager (GTM)** resulting in improved website performance
- using optimization techniques and best SEO practices

Sr. Shopify Developer - Cirkle Studio
2018 May – 2020 Jan

- Joined as trainee in Cirkle and was given training for 3 months in Shopify CMS.
- Learned **LIQUID**, a template language.
- Worked on **more than 50 Shopify stores** and delivered them within tight deadlines
